

# **Power tool solar container lithium battery contacts**

## Overview

---

Are Phoenix Contact BPC connectors UL rated?

The connectors transmit high currents of up to 400 A and are rated for applications up to 1,500 V. They meet all the relevant energy storage standards in accordance with UL 4128, UL 1973, and UL 9540. The new Phoenix Contact BPC series connectors protected against polarity reversal are ideally suited for use in energy storage systems.

What is a ul connector?

The consistent transmission of power also ensures high-level shock and vibration resistance, even under demanding conditions. The connectors transmit high currents of up to 400 A and are rated for applications up to 1,500 V. They meet all the relevant energy storage standards in accordance with UL 4128, UL 1973, and UL 9540.

What is a lithium battery?

Lithium batteries are CATL brand, whose LFP chemistry packs 1 MWh of energy into a battery volume of 2.88 m<sup>3</sup> weighing 5,960 kg. Our design incorporates safety protection mechanisms to endure extreme environments and rugged deployments. Our system will operate reliably in varying locations from North America to sub-Saharan Africa.
