

Prague 5g base station mobile

Overview

Which MNOs have 5G coverage in the Czech Republic?

Vodafone covers over 96.47%, O2 over 93.56% and T-Mobile 93.40% of the population in the Czech Republic (data as of 1 November 2024). The three MNOs, in cooperation with the Prague Public Transit Company (DPP) and CETIN, have also deployed 5G coverage in all stations across the Prague metro network.

Are 5G network technology suppliers secure in the Czech Republic?

In February 2022, the National Cyber and Information Security Agency issued Recommendations for Assessing the Credibility of 5G Network Technology Suppliers in the Czech Republic, which sets out strategic, business and technical security criteria that should be taken into account. The guidance is not legally binding.

Which mobile networks cover the most populated areas in the Czech Republic?

All mobile network operators (MNOs) have deployed 5G networks focusing on coverage of the most populated areas and specifically cities. Vodafone covers over 96.47%, O2 over 93.56% and T-Mobile 93.40% of the population in the Czech Republic (data as of 1 November 2024).

How much power does a 5G base station use?

The power radiated by mobile networks base stations transmitters in bands, which are (or will be) used for 5G technologies, is rather low (power delivered to 2G-4G base stations regular antennas is usually of a maximum 20 W, and in bands over 26 GHz will be lower than 1 W).
