

# **Price of Automatic Folding Container for Tunnels**

## Overview

---

What is a tunnel shipping container?

Tunnel containers provide two access points, they have two sets of standard double-doors (one at each end of the container) making it easy to access both ends of the shipping container. Tunnel Shipping Containers are typically purchased by clients who want improved access to the contents of their container.

What is a 40ft tunnel container?

A 40ft tunnel container is a one trip (new) container with double cargo doors at each end. These containers are the same size as a standard container but offer the added convenience of double doors, making them popular for various applications such as boiler rooms and machinery stores.

Are tunnel shipping containers available for resale?

Tunnel shipping containers are typically only available in new 'one trip' condition, owners typically create them for a specific purpose so they hold onto them. There aren't many tunnel containers available for resale in used condition.

What is a folding shipping container?

The Folding Shipping Container is an essential part of our Prefabricated Building offerings. Materials commonly used in prefabricated building construction include steel, concrete, wood, and glass. Each material offers unique advantages in terms of strength, durability, and design flexibility.
