# Price quote for 50kW solar-powered container shipping at Australian ports

## Overview

---

Based on this data we can see the average cost of a 50kW system as of August 2024 is \$50,480 including the STC rebate and GST. Who makes shipping container solar panels?

Fleet Containers ensures the highest quality in our shipping container solar panel installations. We work with trusted suppliers and manufacturers who adhere to industry standards and provide reliable and efficient solar panels.

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects—all while reducing carbon footprint and cutting energy costs.

What is a 50kw solar package?

Our 50KW solar package provides steady and reliable power for every part of your business, with tier 1 solar panels in an efficient configuration and a solid 50KW solar inverter. We pride ourselves in our strong reputation as the leading provider of commercial solar in Australia.

Why should you choose shipping container solar panels?

**Versatility and Mobility:** Shipping container solar panels offer flexibility and mobility. You can easily move and transport the container with the solar panel system intact, making it suitable for temporary or mobile applications.

**Durability and Low Maintenance:** Solar panels are designed to be durable and require minimal maintenance.
