# Price quote for a 10kW solar-powered container for Indian farms

## Overview

---

How much does a 10kW Solar System cost in India?

There are a few factors and constraints that determine solar panel 10kW price today. Additionally, buyers can make the most of the discounts via government subsidies that are available for the taking. Ideally, a 10kW solar system price in India costs is around INR 6,10,331/- without subsidy.

How does a 10kW Solar System work in India?

In India, if you have an on-grid 10kW solar system, you may qualify for net metering. This allows you to sell the excess electricity generated by your system back to the grid, earning credits that can be used to offset future electricity bills. Switching to solar power reduces your carbon footprint and contributes to a cleaner environment.

How much is a 10 kW solar system subsidy in India?

Ans. The central government offers a subsidy of Rs. 78,000 to homeowners installing a 10 kW on-grid solar system in India. In UP, the state government offers an additional Rs. 30,000 subsidy, taking the total subsidy amount to Rs. 1,08,000 for a 10 kW solar system.

Should you invest in a 10kW Solar System?

Among various solar systems available, a 10kW solar system can generate sufficient power, making it suitable for medium to large-sized homes or businesses. If you're considering investing in a 10kW solar system, this guide will provide everything you need to know – from the price to the system's specifications, benefits, and more.
