Overview

Are 40' containers more expensive than 20' containers?

The prices of 40' containers aren't necessarily twice that of 20' containers. Hence, for clarity, it is crucial to mention the costs of the two container types separately. GoComet offers a free freight rate comparison tool that shows the lowest international shipping prices offered by vendors for a selected port pair.

What is the freightify container shipping calculator?

The Freightify container shipping calculator is a shipping tool that collects the details of the container, including origin, destination, and other information. The calculator then leverages a collection of data points across multiple sources to consider all relevant factors and new policies that could impact the container shipping rate.
