Overview

Will a Solar Park transform Riga into green energy?

Home Port News Major solar park set to transform port of Riga into green energy. On 9 September, an agreement was signed between the Freeport of Riga Authority and Lithuanian company SNG Solar for the lease of land in the Spilve Meadows area of the Latvian port.

Will a solar energy park be built in the port of Riga?

Today, on 9 September, an agreement was signed between the Freeport of Riga Authority and the Lithuanian company SNG Solar on the lease of land in the Port of Riga in the Spilve Meadows area for the development of a solar energy park.

What's going on in Riga?

This deal marks the beginning of a major solar energy project at the port of Riga, which will include the installation of solar panels, the production and storage of renewable electricity, and the development of hydrogen and alternative fuel technologies.

Will a new solar power farm help Latvia's green transition?

The added solar capacity, providing green electricity to over 40,000 households, will advance the country's green transition and lessen its dependence on imported energy. Latvia's current solar generation capacity is 600MW. Stelo Orienta, a subsidiary of European Energy, will start construction of the solar PV farm in early 2025.
