

# **Reykjavik container freezer with generator**

## Overview

---

Equipped with a built-in generator, this deep freezer maintains continuous operation even in areas with unstable power supply, making it ideal for remote sites, food processing facilities, cold storage warehouses, and logistics operations. Which refrigeration system mounts to 40ft ISO containers?

Dual Integral Generator Set - The dual refrigeration system, model NMR-872, mounts to 40ft ISO containers. The system includes dual generator sets for extra protection.

How to choose a generator for a refrigerated shipping container?

Diesel, gasoline, and natural gas are good options. Generators can be really loud, so picking one with a low noise level is key. This is even more important if the generator is going to be used in your neighborhood. If you need to move your refrigerated shipping container around, it's best to go for a generator that comes with wheels.

What type of generator is used for refrigerated shipping containers?

- Diesel generators: Diesel generators are the most common type of generator used for refrigerated shipping containers. They are reliable, durable, and can provide a lot of power. However, diesel generators can be noisy and expensive to operate.

Does Klinge offer a refrigeration unit for ISO containers?

Klinge offers single and multi-temperature refrigeration units for ISO containers, with or without an integral generator set for back-up power supply.  
» 10ft Refrigerated Container - The refrigeration unit, model NMR-071, mounts to a 10ft ISO container. The unit can serve as a fridge or freezer. Integral Generator Set is available.
