# Romania solar Energy Storage

## Overview

---

Does Romania have a battery energy storage plan?

In its first, the Romanian government has allocated EU funds for two major battery energy storage projects via its National Recovery and Resilience Plan. A utility-scale solar-plus-storage site in the country's northwest has flipped the switch.

What is Enery doing in Romania?

This week, Vienna-based Enery has commissioned a major solar and storage site in northwestern Romania. The project consists of a 51.4 MW PV plant and a battery energy storage facility of 22 MWh.

What is Romania's most important energy project?

Earlier this month, Burduja reported progress on what he terms as “the most important project for the Romanian energy system” – the 1 GW Tarnița-Lăpușteți pumped storage hydropower plant. Romania resumed the development of the project last year, upping the planned capacity from 500 MW to 1 GW.

Who are the top solar companies in Romania?

Romania's solar arena is moderately concentrated, with Photon Energy Group and Enel Green Power Romania anchoring the top tier, while Nofar Energy, Econergy, and NextE Renewable are expanding aggressively. International developers form local joint ventures to navigate the permitting and community engagement processes.
