Rome Green Energy Branch Site

Overview

Why did GreenTech open a new office in Rome?

For strategic and personnel reasons, an office has now been opened in Rome. "Here in the capital, we are close to the authorities, business partners and other stakeholders," says Attilio De Simone, Country Head greentech Italy. "We also want to further expand our team. Rome has a clear advantage as a location.".

Where is GreenTech Italy located?

Rome has a clear advantage as a location." The greentech Italy country office is now located in Viale Bruno Buozzi in the Parioli district. The previous country office in Potenza will be closed. The local focus of greentech's project development continues to be on southern and central Italy for PV projects with a capacity of 10 MWp or more.

What is Enea's Rome centre?

ENEA's Rome Centre is the Agency's headquarters, with its governing body and the Offices providing support to the Agency's management and administration. The Centre is also the venue for national and international conferences, meetings and workshops.

How many research centres does Enea have?

ENEA's scientific and technological development activities are carried out in nine Research Centres throughout the country, in addition to five laboratories, the headquarters in Rome, a network of regional offices and the Brussels liaison office for participation in European and international research projects.
