

# **Rwanda solar Energy Storage Power Station**

## Overview

---

With 50 MW/100 MWh capacity, this \$65 million project tackles solar power intermittency while enhancing grid reliability for 500,000+ households. How many solar power plants are in Rwanda?

Currently, Rwanda's total on-grid installed solar energy is 12.050 MW originating from 3 solar power plants namely Jali power plant generating 0.25MW, Rwamagana Gigawatt generating 8.5 MW, and the Nasho Solar plant generating 3.3 MW.

Where can I find information on energy in Rwanda?

For more information on energy in Rwanda, please visit the websites of the Rwanda Ministry of Infrastructure, RDB, the Rwanda Utilities Regulatory Authority, the Rwanda Energy Group, and Energy Private Developers. Off-grid energy solutions, including rooftop solar products and solar powered irrigation.

How many solar home systems are there in Rwanda?

The market for Standalone solar systems is growing in Rwanda, and currently a total of approximately 50,000 solar home systems are known to have been installed in Rwanda for the last 3 years.

Is there a market for solar energy in Rwanda?

Only few companies in Rwanda are active in the field of solar energy. They focus mainly on the market for larger systems for public institutions, e.g. hospitals, schools etc through public tenders. In addition they and others are also trying to sell solar home systems but the market for solar lanterns and small home systems is still in its infancy.
