# Sanaa Micro Uninterruptible Power Supply Quote

## Overview

---

What is an uninterruptible power supply?

An uninterruptible power supply is an electrical apparatus designed to furnish emergency power even when other sources of input power fail, and they are indispensable tools within a huge number of unrelated industries.

Who do you partner with for uninterruptible power supplies?

We only partner with suppliers who meet our stringent supply chain standards for quality (ISO 9001), health and safety (ISO 18001), and environmental management (ISO 14001). Browse our full selection of uninterruptible power supplies or contact us today if you have any questions regarding our range. Call 0800 088 5412.

What is a three-phase online modular uninterruptible power supply system?

Three-Phase online modular uninterruptible power supply systems from the Modulon UPS family offer scalability and redundancy in a single frame, with up to 600 kVA. Delta's UPSs are some of the most advanced in the industry, renowned for their innovation, reliability, and efficiency.

Why should you choose delta power supply units?

The Delta line of uninterruptible power supply units includes superb options trusted by leading organizations across a wide array of industries, from financial institutions to medical centers. Small business owners also look to Delta for power solutions that keep their vital equipment running no matter what happens.
