

# Senegal Yuanxian solar Module

## Overview

---

How much money does axian Energy Invest in Senegal?

The project will provide clean, reliable energy for 235,000 people in Senegal. West Africa, accelerating the uptake of critical battery technology in the region. by 2030. systems operated by AXIAN Energy in the southern Senegalese region of Kolda. The country. The overall investment volume is over EUR 105 million, of which, EUR 84 million of DEG.

Does Senegal have a solar energy sector?

Senegal's energy sector is increasingly reliant on solar power, making it essential to assess its long-term viability under changing climate conditions. This study evaluates future solar energy production in Senegal up to 2050, focusing on eight operational solar plants: Bokhol, Sakal, Malicounda, Kahone, Ten Merina, Mekhe, Ndiass, and Kael.

How much money will axian Energy Invest in a solar power plant?

by 2030. systems operated by AXIAN Energy in the southern Senegalese region of Kolda. The country. The overall investment volume is over EUR 105 million, of which, EUR 84 million of DEG. photovoltaic plant with BESS project in West Africa. This ambitious project will set a battery storage technology.

Why did axian energy sign a financing agreement with a solar farm?

On the occasion of the signature of the financing agreements, AXIAN Energy CEO Benjamin Memmi said: "The Kolda solar farm project reflects our dedication to contribute to energy inclusion in Senegal and across the continent, in line with key United Nations Sustainable Development Goals.
