

Shopping mall rooftop solar panel project

Overview

Which Philippine malls have rooftop solar PV installations?

The first Philippine mall to have a rooftop solar PV installation was SM North EDSA in 2014 with a 1.5MW peak capacity. The installation at SM Fairview augments the rooftop solar PV system of SM City Santa Rosa, which was previously the largest installation with a 3.088MW peak capacity.

Will SM Supermalls put solar panels in redevelopment?

“But as we renovate, as we redevelop our malls, that’s an opportunity for us to put in the solar panels. We will be including that as part of our redevelopment,” he said. Last July, SM Supermalls unveiled the largest rooftop solar PV system on a commercial building in the country at SM City Fairview with a 3.79-megawatt peak solar power capacity.

How many SM malls will have solar panels next year?

MANILA, Philippines — Integrated property developer SM Prime Holdings Inc. is powering up more SM shopping centers nationwide with solar energy, with plans to install rooftop solar photovoltaic (PV) systems in 20 malls next year. “Currently, 48 of our 88 malls are already with solar panels.

Does SM Mall have a solar system?

SM’s journey into renewable energy began in 2014 with the country’s first mall rooftop solar system at SM City North EDSA. Two years later, SM Mall of Asia followed with a 2.7 MW solar system, which later received a Sustainable Energy Award from the Department of Energy.
