

WALMER ENERGY

Sierra Leone RV Battery BMS Wholesale

Overview

What is a battery management system (BMS)?

We're eager to assist you in finding the perfect BMS solution to suit your specific needs. This BMS is designed for the management of 7-16 series lithium batteries, with a continuous charge and discharge current of 40A. It features an integrated design that combines functions such as data collection, management, and communication.

What is a battery management system?

A Battery Management System is the brains behind your battery pack. It's a sophisticated electronic system that ensures each individual cell within your battery operates optimally, maximizing performance, lifespan, and safety. ONEPOINTECH offers a diverse range of Battery Management Systems tailored for various applications.

What is a 7-16 battery management system (BMS)?

This BMS is designed for the management of 7-16 series lithium batteries, with a continuous charge and discharge current of 40A. It features an integrated design that combines functions such as data collection, management, and communication. It utilizes STMicroelectronics MCU and SinoWealth AFE front-end analog sampling for control.
