# Sierra Leone's new energy storage industry

## Overview

---

What is the sogre initiative & how does it help Sierra Leone?

The SOGREA initiative directly supports Sierra Leone's Energy Transition and Green Growth Plan (ETGGP), launched in November 2024 under the Presidential Initiative on Climate Change, Renewable Energy, and Food Security (PICREF).

Does Sierra Leone have a low energy access rate?

Sierra Leone currently has one of the lowest energy access rates globally, with only 36% of its population connected to the grid and a mere 6% in rural areas. The SOGREA Initiative supports the government's aim to increase the share of renewable energy in the country's energy mix to 35% by 2030. "By 2027, Sierra Leone will be fully illuminated.

Can partnerships deliver lasting change in Sierra Leone?

Damilola Ogunbiyi, CEO and Special Representative of the UN Secretary-General for Sustainable Energy for All, said that by working together, the government of Sierra Leone, the European Union, UNOPS, and SEforALL are showing how partnerships can deliver lasting change.

What challenges does Sierra Leone face?

Like many nations, Sierra Leone faces an increasing energy challenge. Only 36 per cent of the population has access to electricity, and just six per cent in rural areas. This limited access impacts healthcare, education and job creation.
