

# **Singapore Industrial Energy Storage Plant**

## Overview

---

Will Singapore expand its largest battery storage plant?

Singapore's government and the Energy Market Authority (EMA) have announced significant upgrades to the power sector, including potential expansions of Southeast Asia's largest battery storage plant.

Does Singapore need energy storage systems to manage solar intermittency?

However, the minister said there is a need to "step up energy storage systems to manage solar intermittency." Talks are currently ongoing with Sembcorp, the engineering conglomerate behind the 200MW/285MWh battery energy storage system (BESS) installation on Singapore's Jurong Island.

What is Sembcorp energy storage system (ESS)?

Singapore, February 2, 2023 - Sembcorp Industries (Sembcorp) and the Energy Market Authority (EMA) today officially opened the Sembcorp Energy Storage System (ESS). The Sembcorp ESS is Southeast Asia's largest ESS and spans across two hectares of land in the Banyan and Sakra region on Jurong Island.

When will Singapore's energy storage system be completed?

EMA's director of industry development Jeanette Lim said that the energy storage system had to be completed by December last year in order to provide energy, reserves and regulation services to enhance Singapore's grid resilience, to manage any protracted market and energy supply volatility.
