

# Singapore imports solar panels

## Overview

---

Will Singapore import solar power from Indonesia?

Singapore is set to import 1.4 gigawatts (GW) of electricity from two new solar power projects in Indonesia, according to Senior Minister Teo Chee Hean. This move is part of Singapore's strategy to boost its low-carbon energy supply. The new agreement adds to an earlier deal for 2 GW of solar power from Indonesia.

Can Singapore import solar power from neighbouring countries?

Singapore could import large quantities of low-cost solar power from neighbouring countries using undersea cables, with the indicative cost being competitive with gas generation. Unlimited world-class pumped hydro energy storage is available in neighbouring countries in the range 50-5000 GWh to support very large scale transmission. Singapore.

Could a solar farm be supplying electricity to Singapore?

This comes after Singapore raised its clean electricity import target to 6GW in September. SINGAPORE – A solar farm in Australia could be among the foreign players supplying electricity to Singapore in the future, now that the authorities here have given Sun Cable (Singapore) Assets the conditional approval to import the low-carbon electricity.

Will Singapore import solar power through Australia-Asia Powerlink?

Australian company Sun Cable is preparing to construct what is probably the most ambitious renewable energy project the world has ever seen. Singapore wants to import solar power through the Australia-Asia PowerLink (AAPowerLink).
