Sodium-ion solar container battery mass production

Overview

CATL is bringing sodium-ion batteries to commercial scale, with plans to begin mass production of its new Naxtra cells in December 2025. Is CATL a sodium ion battery?

FAQ The Sodium-Ion Advantage: CATL's Naxtra Batteries CATL, the world's largest lithium-ion battery manufacturer, has officially entered the sodium-ion battery market with its new brand, Naxtra.

Why is naxtra launching a sodium-ion battery at CATL's Super Tech Day?

The announcement at CATL 's Super Tech Day marks a significant milestone in the energy industry, as Naxtra harnesses sodium's natural advantages to push beyond resource constraints. What Makes Sodium-Ion Batteries Unique?

What is the world's first large-scale mass-produced sodium-ion battery?

Earlier this year, on April 21, CATL introduced what it described as the world's first large-scale mass-produced sodium-ion batteries. The initial products included the "Sodium New Power Battery" for passenger vehicles and the "Sodium New 24V Integrated Starter Battery" for heavy-duty trucks.

Is naxtra the world's first sodium-ion battery?

CATL has officially unveiled the Naxtra Battery, claiming it to be the world's first Sodium-ion Battery produced on a mass scale. The announcement at CATL 's Super Tech Day marks a significant milestone in the energy industry, as Naxtra harnesses sodium's natural advantages to push beyond resource constraints.
