Solar Live Energy Testing Site in Africa

Overview

What is solar & storage live Africa?

Solar & Storage Live Africa is Africa's largest renewable energy exhibition that celebrates the technologies at the forefront of the transition to a greener, smarter, more decentralised energy system. Your free ticket gives you access to the premium conference, the exhibition and networking with thousands of industry leaders.

What is Africa Energy Tracker?

The Africa Energy Tracker provides a comprehensive dataset of energy infrastructure across Africa.

Does Africa still have solar power?

While the spread of solar energy across Africa is encouraging, a significant concentration of capacity persists. In 2024, 78 per cent of all new installations were concentrated in just two countries — South Africa and Egypt.

Can Africa unlock its solar power potential?

Structural challenges such as limited financing, regulatory barriers and infrastructure constraints continue to impede the continent's ability to fully unlock its solar potential. Nevertheless, Africa's growing appetite for clean energy signals a promising future for solar power across the region.
