# Solar container battery steel clamp

## Overview

---

What is a solar battery enclosure?

Free-standing enclosures and floor-mounted enclosures are perfect either for large solar batteries or many batteries that are too heavy to be wall-mounted or pole-mounted. Free-standing battery enclosures could be of any height, width, and depth according to your requirements. They can be portable if you choose to include casters.

How does a solar panel holder work?

Another industry-specific feature is a solar panel holder. They are attached to the solar battery enclosure using brackets, and hold up the solar panel. Thus, the panel and the battery cabinet are connected to each other. You can assemble this holder on your own, but it may be more efficient for your business to just request this feature from KDM.

What is a wall-mounted solar battery enclosure?

Wall-mounted enclosures use mounting brackets, screws, and pads for installation onto a wall. Wall-mounted solar battery enclosures are perfect for small batteries in public places. Also, this design is the most common one for solar battery enclosures. Wall-mounted battery enclosure.

What are Chiko solar clamps made of?

The chiko solar clamps made of extruded anodized aluminum, with universal and adjustable clamp to realize 30-50mm framed and 5~7.5mm thin film solar panel installation.
