

# **Solar container battery system for lighting**

## Overview

---

What is a shipping container solar lighting kit?

Shipping Container Solar Lighting Kits provide lighting in shipping containers and storage areas with 2 days of battery technology for cloudy, rainy, or snowy days with 8 hours per day of run time.

How does a shipping container solar lighting system work?

The shipping container solar lighting system is very simple and maintenance free. The 12V battery provide power to the LED lights and the solar panel provide power to the battery through the charging controller. Need a shipping container solar lighting?

You came to right place. Get in touch with our sales team.

What are solar lighting fixtures for shipping container?

Sun-In-One LED lighting fixtures for shipping container solar lighting kits provide you with enough light to get equipment or supplies out of the container, up to high-quality lighting, and allow you to use the shipping container as a workshop and have enough light to do fine detailed work.

What parts do I need for a shipping container solar lighting system?

Here is a list of the needed parts for a solar lighting system. 100W 12v Solar panel with a charge controller. 12V 100AH Battery. Electrical wires & On/Off switch. EMT 1/2 inches electrical conduit. 12V LED Light Strip. With these parts on hand we can create and install the shipping container solar lighting system.
