Solar container outdoor power charging DC 5V

Overview

How do flex solar portable USB solar panel Chargers work?

With integrated USB output port (s), FlexSolar portable USB solar panel chargers can charge phones, power banks, USB devices directly on the go when hiking, backpacking.

How do solar panel Chargers work?

Backpack-friendly portable solar panel chargers feature integrated regular 5V USB, QC3.0 USB, or USB Type-C ports. Made to directly charge iPhones, Android smartphones, power bank, or USB Type-C devices when you are hiking, hunting, and backpacking. Just plug into the integrated USB or Type-C port to charge.

How do I charge my solar panels?

Just plug into the integrated USB or Type-C port to charge. Automatically detect the connected devices and the LED light show the charging status. Made in EFTF lamination to be flexible and last longer than regular small solar panels. Portable to carry, simple to use, and durable to last longer than your expectation. Need more watts solar panels?
