

Solar glass factory under construction in Manila

Overview

Where in the Philippines will a solar power plant be located?

The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy storage system (BESS).

What is the impact of a solar power project in the Philippines?

The project has strong sustainability credentials, notably because of its impact in decarbonising the Philippines' energy system (SDG7), but also by generating power to support economic development (SDG8), creating more than 10,000 new jobs (SDG8), and facilitating local development (SDGs3+4).

Who owns 100% of Solar Philippines?

The transaction with Solar Philippines New Energy Corporation, which currently owns 100% of the project, was announced at a signing ceremony in Pasig City, Philippines, attended by Torbjorn Caesar, Chairman and Senior Partner at Actis, Manuel V. Pangilinan, Chairman of Meralco, and Emmanuel V. Rubio, CEO of Meralco PowerGen (MGen).

Can Photovoltaic Glass be integrated into a modern high-rise?

Spain. Onyx Solar provided its amorphous silicon photovoltaic safety laminated glass panels for the impressive Mirax Tower in Manila, Philippines. This project demonstrates how photovoltaic glass can be seamlessly integrated into a modern high-rise, enhancing the building's overall performance while maintaining a sleek architectural aesthetic.
