How do solar panels work in Wellington & Kapiti?

These panels are designed to absorb sunlight and convert it into electricity. The solar panels Wiretec Electrical install in Wellington and Kapiti are specified high wattage solar panels specially designed to capture even the faintest rays of sunlight, making them highly efficient on Wellingtons cloudy days.

How does solar energy work in Wellington?

Wellingtons sunlight ensures that solar panels can consistently produce a substantial amount of clean energy. The electricity produced by solar panels is in the form of DC current, while most homes and businesses in Wellington use alternating current (AC). To make the solar energy usable, solar inverters are employed to convert DC into AC.

Why should you choose a solar installer in Wellington?

Switching to solar power is a smart choice for Wellington residents, and choosing the best solar installers in Wellington ensures a high-efficiency, reliable system. With Wellington's moderate sunshine—averaging around 2,000 hours annually—solar energy offers significant savings and environmental benefits, even in the city's variable climate.
