Solar panel models

Overview

What are the different types of solar panels?

Discover the six main types of solar panel, including thin-film, perovskite, and the best type for your home: monocrystalline. What kind of home do you live in?

When you're considering whether to get solar panels, it's a good idea to look into all the different types, to ensure you choose the best system for your home.

How many solar panel 3D models are there?

Explore 326 solar panel 3D models ready for download to use in animation, games, VR/AR, and a variety of projects. Filter by models that require clean, UV unwrapped geometry and texture based PBR materials. Filter by models that can be digitally rendered very quickly, making them more immersive. 100+ free Solar Panel 3D models.

Are solar-panel 3D models available for free?

Solar-panel 3D models ready to view and download for free. Solar-panel 3D models ready to view and download for free.

What type of solar panel should I choose?

The type of solar panel you should choose depends on the type of system you want to install. For a traditional rooftop solar panel system, you'll usually want monocrystalline panels due to their high efficiency. If you have a big roof with a lot of space, you might choose polycrystalline panels to save money upfront.
