

# **Solar panels on rooftops in Canberra**

## Overview

---

How many solar panels are installed in Canberra?

Over 11,281 small-scale systems have been installed in Canberra, ACT with a collective capacity of 10,631 kW. Around one in ten households in Canberra, ACT, generates solar power through rooftop installations, contributing to the territory's goal of reaching and maintaining 100% renewable energy.

Why should you choose a solar installer in Canberra?

Solar installers Canberra residents work with should understand the unique needs and requirements imposed by the climate conditions of the ACT. Our team picks only solar panels and systems suited to best suit your needs.

Do you repair or install solar panels in Canberra?

We also repair existing PV systems, even if we didn't install them, so if you need assistance, we're here to help. We're the longest standing solar installer Canberra has active today, having been operating in the ACT since 2010 and in solar for over 19 years.

Does rooftop solar work in Canberra?

Solar electricity generated in Canberra will mostly displace coal generation in NSW, along with a smaller amount of natural gas generation. This makes rooftop solar in Canberra very effective at reducing greenhouse gas emissions.
