# Solar power station in China in Netherlands

## Overview

---

What is the largest PV power station in the Netherlands?

Moreover, in 2019, Chint Solar successfully won the PV power station in Midden Groningen, Netherlands, with a capacity of 103 MW. It is currently the largest PV power station in the Netherlands and the first photovoltaic power station project integrated into the Dutch TenneT grid.

What is the largest solar installation in the Netherlands?

2016 The largest solar installation in the Netherlands, the 6 MW array at the Wadden-Island Ameland was officially opened in June 2016. Installed capacity per capita rose to 120.1 W, thirteenth position in the EU and nearer to the EU average of 197.8 W than in preceding years.

What is the largest solar power station in the world?

6. Argentina Cauchari Jujuy Solar PV Project (315 MW) is the world's highest large-scale photovoltaic power station. During the first Belt and Road Forum for International Cooperation, under the witness of the heads of both China and Argentina, a cooperation document of the Cauchari Solar PV Project was signed.

Which countries have a large-scale photovoltaic power plant?

5. SKTM Photovoltaic Project (233 MW) in Algeria is the first large-scale photovoltaic power plant in Algeria and has won the International Energy Corporation Best Practices award. 6. Argentina Cauchari Jujuy Solar PV Project (315 MW) is the world's highest large-scale photovoltaic power station.
