Solar powered portable outlet in Ukraine

Overview

Do I need a power adapter in Ukraine?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Ukraine, you will need a power adapter and/or a voltage converter/transformer. The standard voltage in Ukraine is 230 V, and the standard frequency is 50 Hz.

What type of plugs does Ukraine use?

Ukraine uses power outlets and plugs of types C & F. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Type C - The standard European plug.

What is the standard voltage for a power socket in Ukraine?

All power sockets in Ukraine provide a standard voltage of 220V with a standard frequency of 50Hz. You can use all your equipment in Ukraine if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.

Do I need a voltage converter in Ukraine?

This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia. If the standard voltage in your country is in the range of 100V-127V (which is most common in the US, Canada and countries in South America) you might need a voltage converter in Ukraine. The standard frequency in Ukraine is 50Hz.
