South Korea's telecommunications base station wind power construction bidding

Overview

What is South Korea's offshore wind power bidding plan?

The capacity of the proposed bidding round is in line with South Korea's Offshore Wind Power Competitive Bidding Roadmap, unveiled in August 2024, and its Public-led Offshore Wind Bidding Plan released in March 2025. In addition to offshore wind, the Asian nation will offer for tender up to 1 GW of solar photovoltaic (PV) capacity.

How much will South Korea's offshore wind power auction cost?

The ceiling price has been set at KRW 176,565 (USD 128.6/EUR 113.3) per MWh, the same as in last year's auction. The capacity of the proposed bidding round is in line with South Korea's Offshore Wind Power Competitive Bidding Roadmap, unveiled in August 2024, and its Public-led Offshore Wind Bidding Plan released in March 2025.

Will South Korea expand its offshore wind power?

The MOTIE's roadmap for offshore wind power marks a significant step forward in South Korea's renewable energy transition. With more transparent bidding procedures, revised evaluation criteria, and extended deadlines, the country is setting the stage for a significant expansion of its offshore wind capacity.

How many offshore wind power tenders will Korea launch in 2024?

Korea will launch approximately 7–8 GW worth of offshore wind power tenders from the second half of 2024 to the first half of 2026. Since you're here, there are many ways you can work with us to advertise your company and connect to your customers.
