

# **Southeast Asia solar container energy storage system Integration**

## Overview

---

Could Singapore sit at the 'core' of new energy grids in Southeast Asia?

Singapore could sit at the “core” of new regional electricity grids in Southeast Asia, with proposed interconnections to neighbouring countries set to bring 25GW of new renewable power and energy storage projects online. This is according to Rystad Energy, which published a report into Singapore’s role in the Southeast Asian energy mix this week.

Does Singapore have a role in Southeast Asian energy mix?

This is according to Rystad Energy, which published a report into Singapore’s role in the Southeast Asian energy mix this week. The report notes that Singapore already has hydropower and solar PV projects connected to Thailand and Laos, and that other connections have been proposed including other countries and technologies.

What is Sembcorp energy storage system (ESS)?

Singapore, February 2, 2023 – Sembcorp Industries (Sembcorp) and the Energy Market Authority (EMA) today officially opened the Sembcorp Energy Storage System (ESS). The Sembcorp ESS is Southeast Asia’s largest ESS and spans across two hectares of land in the Banyan and Sakra region on Jurong Island.

Will Singapore import solar energy from Indonesia?

Singapore has advanced plans to import 1.4GW of solar and energy storage capacity from Indonesia in the last year. Image: Sunseap.
