Swedish outdoor communication power supply BESS information

Overview

Where is the 10MW Bess project located?

The 10MW BESS will be strategically located in SE3, helping to stabilize the grid by providing ancillary and balancing services across frequency markets. "We are excited to deliver this project to our customer," said Magnus Häggström, Chief Commercial Officer at Helios Nordic Energy.

Why does Sweden need batteries?

Sweden's new electricity production comes from solar power; however, electricity generated from renewables can be highly variable hence the need for batteries. PSW's BQ is a modular energy storage system with an integrated energy control solution that maximizes the revenues from solar production, energy trading and frequency regulation.

Does PSW power & automation have a Swedish branch?

PSW Power & Automation has several ongoing projects in Sweden and have recently opened a Swedish branch to secure an even larger market share.
