Swiss ups uninterrupted power supply

Overview

How many UPS & battery systems have been installed in Switzerland?

More than 30'000 UPS and battery systems have been successfully delivered, installed and are in operation at more than 3'000 clients in more than 100 countries. This success is based on traditional Swiss values that focus on technical excellence and quality in all areas of operation. We welcome you to be part of it.

What is an uninterruptible power supply / UPS?

An uninterruptible power supply / UPS is an electrical apparatus that provides emergency power to a load when the input power source or mains power fails.

Who makes uninterruptible power supplies?

Swiss made and designed Uninterruptible Power Supplies for the present and future of the most critical power applications. From Standalone PremiumTower10-60kW to the most advanced and highest availability modular solution CumulusPower. Centiel advanced technology takes availability to the next level.

What is a ups & how does it work?

A UPS differs from an auxiliary or emergency power system or standby generator in that it will provide near-instantaneous protection from input power interruptions, by supplying energy stored in batteries, supercapacitors, or flywheels.
