# Sydney Power Construction Energy Storage Project in Australia

## Overview

---

Is stor-energy planning a battery energy storage system?

Stor-Energy has submitted plans for multiple battery energy storage systems (BESS) for assessment under the Environment Protection and Biodiversity Conservation (EPBC) Act in recent weeks, including a 150 MW / 730 MWh project in New South Wales (NSW).

Why is Australia investing in energy storage in Q1 2025?

The CEC supports the underlying policy goal of improving demand flexibility across the grid to lower costs, make better use of renewable generation and reduce bills for all consumers. Australia's remarkable run of investment commitments to energy storage projects continued in Q1 2025. Learn more from our report.

Will a solar-plus-storage site connect to the National Electricity Market?

According to documents submitted as part of the EPBC Act application, the solar-plus-storage site would connect to the National Electricity Market (NEM) via a connection with the Project EnergyConnect, an interconnector between the power grids of New South Wales and South Australia that is currently under construction.

Will a giant shock absorber protect Australia's electricity grid?

The ambitious project, led by Australia's Akaysha Energy, features an 850-megawatt/1,680-megawatt-hour battery energy storage system (BESS) that will act as a giant shock absorber, cushioning the electrical grid against instability.

## Sydney Power Construction Energy Storage Project in Australia

---

Zen Energy plans Sydney pumped hydro energy storage

Apr 11, 2024 · "Large-scale energy storage projects like Western Sydney Pumped Hydro are key to keeping the lights on and energy prices in check in NSW as our coal-fired power stations

...

---

Ausgrid pitches its first big batteries for ...

Nov 4, 2024 · Ausgrid want to put two large batteries in Sydney and Newcastle, as part of the company's first foray into big installations.

---

Samsung C&T seeks approval for 250MW solar-plus-BESS in ...

Feb 6, 2025 · Samsung C&T Renewable Energy Australia has submitted a 250MW solar-plus-BESS site in New South Wales to the Australian government's EPBC Act.

---

Enerven expands role in Australia's grid transformation

1 day ago · Enerven's role in shaping Australia's future energy system is just beginning; it's a future built on the strength of where we started," Amato said. Enerven's project portfolio spans ...
