

Syrian energy storage supercapacitor manufacturer

Overview

What is supercapacitor battery storage for telecom applications?

Supercapacitor battery storage for telecom applications delivers the best performance with the lowest cost of ownership in the industry. Store the surplus PV generation in the battery and smartly discharge the energy to match your electricity usage. You can cut electricity bill by minimizing the energy consumption from the grid.

What is a supercapacitor battery?

Because of its excellent cycle life characteristics, Supercapacitor battery is suitable for battery energy storage systems for primary frequency regulation. Small, light UPS systems for efficient space utilization.
