

Tallinn Large Capacity Battery Energy Storage

Overview

When will Iges build a new battery facility in Tallinn?

Completion date: First phase by 2025, second phase by 2026. Storage capacity: 400 MWh. Location: Kiisa, Saku Rural Municipality, Harju County, near Tallinn, Estonia. Read also [LGES Pauses Construction on part of its \\$5.5B Battery Facility in Queen Creek](#).

Why are lithium-ion batteries gaining space in Estonia?

When countries are trying to reduce their greenhouse gas emissions for meeting the climate targets, the role of energy storage would be crucial. Lithium-ion batteries are also gaining space in Estonia to reduce dependence on other countries for power and to ensure a cleaner energy mix in line with its goal to build more battery parks.

How will a battery energy storage park work in Estonia?

The battery energy storage park and its substation will be connected to the electricity transmission network using a 330kV AC underground cable, marking a first in Estonia. Baltic Storage Platform confirmed that the BESS will seek to ensure the stability and resilience of the Estonian electricity grid.

Why is energy storage important for Estonia?

Energy storage is also critical for the ability of Estonia to achieve zero-emission levels for electricity generation by 2030.

Tallinn Large Capacity Battery Energy Storage

TALLINN ENERGY STORAGE BATTERY

Swedish lithium-sulfur battery energy storage This initiative represents the deployment of 14 large-scale battery storage facilities with a total capacity of 211MW/211MWh - a historic investment ...

Baltic Storage Platform OÜ (Estonia)

Oct 30, 2025 · The borrower, Baltic Storage Platform OÜ, is a joint venture (JV) between Evecon, Corsica Sole, and Mirova. The JV aims to develop, build, and maintain two large-capacity ...

Tallinn power storage

flow battery energy storage project Evecon, an Estonian renewable energy company, and Corsica Sole, a French company, will build two battery energy storage systems with a total capacity of ...

Tallinn flow battery energy storage project

The efficiency of the battery energy storage system (BESS) is mainly influenced by the battery efficiency, power conversion, and standby consumption In Tallinn, when the large PS-flow ...

Tallinn battery energy storage testing center

Jan 20, 2025 · "With VDE Renewables, we look forward to providing much-needed battery and ESS bankability protocols and testing services that will help standardize and improve the ...

Construction of Europe's largest battery park in Estonia

Oct 17, 2024 · Completion date: First phase by 2025, second phase by 2026. Storage capacity: 400 MWh. Location: Kiisa, Saku Rural Municipality, Harju County, near Tallinn, Estonia. Read ...

Groundbreaking for 400MWh BESS in Estonia

Oct 4, 2024 · Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

Tallinn Power Storage Project: A Blueprint for Grid-Scale Energy

As Europe races toward 2030 renewable targets, the Tallinn Power Storage Project has become a litmus test for grid-scale battery viability in northern climates. Operational since Q4 2024, this ...

Tallinn Energy Storage Lithium Battery Company: Powering ...

Dec 17, 2023 · Let's face it: the energy storage game isn't for the faint-hearted. But here in Tallinn, where winter nights stretch longer than a Netflix binge session, one company is turning cold ...

Groundbreaking for 400MWh BESS in Estonia

Oct 4, 2024 · Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in ...

Tallinn large capacity energy storage battery

A large battery system was commissioned in Aachen in Germany in 2016 as a pilot plant to evaluate various battery technologies for energy storage applications. This has five different ...
