Tender for 5g base stations of China Telecom

Overview

How many 5G base stations will China Mobile have this year?

China Mobile plans to operate more than 1.6 million 5G base stations this year, with 360,000 new additions. It aims to increase its number of cloud servers by more than 240,000 units and add 40,000 external data center racks. Editor: Emmi Laine.

Which telco will supply 5G base stations in 2023 & 2024?

Huawei Technologies has secured a major contract that will see it supply over half of the 5G base stations for telco China Mobile between 2023 and 2024. In total, Huawei has won 52 percent of China Mobile's 5G base station work, as part of the largest portion of the contracts put out for tender this year, according to Yicai Global.

Who won China's largest wireless base station tender in 2023?

(Yicai Global) June 12 -- Huawei Technologies has gained over half of the procurement of China's largest fifth-generation wireless base station tender this year organized by China Mobile. The telecoms giant scored over 50 percent of the total of the major mobile network operator's centralized procurement program in 2023, The Paper reported today.

Which companies have been awarded a 5G contract?

Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell. China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks.
