

# **The inverter has the highest single-unit power in the world**

## Overview

---

Kehua's 1500V/350kW inverter is currently the largest string inverter in the world in terms of single power. What are the top 10 solar inverter brands?

Discover the top 10 global solar inverter brands—Sungrow, Huawei, Solis, GoodWe, Growatt, SMA, SolarEdge, Power Electronics, FIMER, and Enphase Energy. Explore their unique technologies and learn why they lead the clean energy market.

What is a high power inverter?

Ultra-High Power: Central inverters ranging from 2.5MW to 4.4MW for utility-scale projects. Silicon Carbide (SiC) Technology: Increases efficiency, reduces energy loss. Grid Services: Includes reactive power and frequency regulation. Leading provider for utility-scale PV plants in the Americas. Custom engineering for challenging grid requirements.

Which companies dominated the global inverter market?

Huawei's inverter segment also delivered an outstanding performance, with the two companies dominating the global market by a wide margin. Other enterprises, such as TBEA, Senergy, Deye and Ginlong (Solis), followed closely behind.

What is a modular inverter?

Small Module, Mega Impact The 1+X 2.0 Modular Inverter provides increased modularity compared to the previous version. With each unit having a power rating of 800kW, the inverter provides flexible scalability from 800kW to 9.6MW (single unit to 12 units in parallel). This results in great flexibility, which covers various scenarios.
