

# Tile-type solar panel cost

## Overview

---

How much does a solar roof tile system cost?

To give you an idea, the average 3.5 kW solar roof tile system will cost around £13,000, compared to approximately £7,000 for a regular PV system. However, remember that you are also getting a new roof with your solar tiles, so a direct price comparison is slightly misleading. Information last updated in April 2025.

What are solar roof tiles?

Just like solar panels, solar roof tiles convert sunlight into electricity, but they're made to look just like traditional roof tiles. Some models are actual roof tiles with integrated solar cells.

Are solar panels better than roof tiles?

Solar panels, that is solar panels on slate roofs, are still the better investment overall compared to solar roof tiles. Roof tiles are expensive because you are ultimately installing a new roof, and while they look great, they can be less efficient than solar panels.

What are the different types of solar tiles?

Solecco Solar – Solecco Solar offers tiles in eight different colours, from smooth grey to terracotta and old English dark red. A 4kW system will cost around £12,000. Edilians solar tiles – Edilians make two types of solar tiles, Solar Max and HP 10 Solar.
