Tokyo base station and power tower

Overview

How to get to Tokyo Tower?

Tokyo Tower is conveniently located. To get there, hop on the Mita Subway Line and get off at Onarimon Station. Alternatively, take the Hibiya Subway Line to Kamiyacho or the Oedo Subway Line to Akabanebashi. The tower is about a five-minute walk from each of these stations. Alternatively, take the JR Yamanote Line to Hamamatsucho Station.

What is the tallest broadcasting tower in Japan?

With the start of NHK, Japan's national broadcaster, in 1953, the Tokyo area needed a large broadcasting tower. Based on the Eiffel Tower in design, Tokyo Tower was completed in 1958. At 333 meters tall, it was the tallest freestanding tower in the world when it was built. Tokyo Tower is separated into three distinct sections.

Which subway station is closest to Tokyo Tower?

There are several stations close to the Tokyo Tower. The nearest subway stations are Akabanebashi station and Onarimon station. The nearest JR station is Hamamatsucho Station, which is around a 15 minute walk away.
How Much Does it Cost to Visit Tokyo Tower?

How did the Tokyo post office redevelopment work?

This large-scale redevelopment project preserved the two-span depth of the former Tokyo Central Post Office building facing the Tokyo Station Plaza and built a tower on top of it. While preserving the historical urban landscape in front of Tokyo Station, a new urban landscape was created by contrasting it with the tower that stretches into the sky.
