

Tripoli Distributed Energy Storage Application Company

Overview

What is distributed energy storage?

The company's distributed energy storage solutions combine massive arrays of industrial-strength lithium-ion batteries with specialized software and control systems to enable flexible energy optimization.

What is ABB distributed energy storage?

ABB provides a Distributed Energy Storage (DES) system, a packaged solution for storing energy for later consumption. The two essential components of the system are the DC-charged batteries and the bi-directional inverter. This equipment is enclosed in a shipping-friendly shell that can tolerate harsh conditions.

What is a gas turbine in Libya?

The gas turbines are dual fuel type; the main fuel is Light Distillate Oil and the backup fuel is natural gas planned for future use. The project helps to meet the urgent power needs of Libya and improve the living conditions in the cities and surroundings.
