UK Manchester buys mobile energy storage power supply

Overview

Will a UK battery energy storage project come online next year?

One of UK's largest battery energy storage projects has changed hands and will come online next year as part of a low carbon energy park in Greater Manchester. UK-based developer Statera Energy has acquired a 680 MW/1360 MWh battery energy storage project in Greater Manchester from Carlton Power.

Who owns Carlton power's 'Carrington storage' project in Greater Manchester?

UK-based developer Statera Energy has acquired a 680 MW/1360 MWh battery energy storage project in Greater Manchester from Carlton Power. Located at Trafford Low Carbon Energy Park, Carrington Storage is expected to become one of the largest of its kind in Europe once fully energised in 2026.

Who owns Trafford low carbon energy park?

Statera Energy is acquiring the project, which has already been approved by Trafford Council, from UK independent energy infrastructure developer Carlton Power. Carlton Power is the owner of Trafford Low Carbon Energy Park, a brownfield site which once hosted the Carrington coal-fired power station.

What is statera's biggest consented battery storage project?

Statera's latest project has already been approved by Trafford Council and is its largest consented battery storage project to date. The company was founded in 2016 and has over 1 GW of UK projects operational or in construction, and as of the latest announcement – a consented battery storage pipeline of 1370 MW.
