Uninterruptible power supply for hospitals in Portugal

Overview

Why do hospitals need an uninterruptible power supply (UPS)?

That's why we're proud to offer our uninterruptible power supply (UPS). Our UPS provides an uninterrupted power supply to hospitals and other medical facilities, protecting critical equipment, data, and personnel since 2001 for over 500 projects. With our UPS, hospitals can rest easy knowing that their power source is secure and dependable.

What laws affect hospital power supply?

Legislation exists that directly affects hospital power supply, and what healthcare facilities must comply with. For example, IEC 60364-7-710 applies to electrical installations in medical locations, to ensure the safety of patients and medical staff.

What types of medical equipment require uninterrupted power supply?

Radiology: Radiology equipment such as CT Scanners, MRI machines, and X-Ray machines require uninterrupted power supply to prevent any loss of data.
Hemodialysis Center/Room: Hemodialysis is a medical procedure that is used to remove waste and excess fluid from the blood of patients with kidney failure.
