

WALMER ENERGY

# Universal battery pack

## Overview

---

What is a 'universal' battery pack?

Transmission tunnel or rear mounting of motor required. It might look simple, but our 'Universal' battery pack represents years of experience designing and manufacturing hundreds of electric powertrains.

What are battery packs?

Battery packs are constructed from two or more individual cells or batteries. There are two basic types of battery packs: primary and secondary or rechargeable. Primary batteries are disposable, non-rechargeable devices. They must be replaced once their energy supply is depleted.

Why do you need a universal external battery pack?

Universal external battery packs are among the most practical and essential accessories for both business and entertainment purposes. They provide extra power when your battery is nearly drained.

What kind of batteries does UPG offer?

From our Universal Battery® Sealed Lead-Acid (SLA) batteries to Lithium Iron Phosphate and custom-engineered smart Lithium-Ion batteries, UPG has established itself as a leader in the energy storage industry, providing dependable quality and performance for even the most challenging needs.
