

# Venezuela solar Glass Factory

## Overview

---

Can solar energy be used in isolated rural communities in Venezuela?

It aims to develop the use of renewables within isolated rural communities includes solar. The future development of the solar energy sector in Venezuela with the growth of energy consumption and substitution of fossil fuels by renewable energy potential is likely to promote the solar energy market in Venezuela.

Why is solar energy becoming more popular in Venezuela?

Solar energy is one of the fastest-growing forms of energy in power generation that is expected to show a gradual increase in the energy mix of Venezuela. This tendency is maintained by the significant decrease in the cost of renewables with the support of investments and new technologies.

How much solar power does Venezuela have?

According to the latest statistics published by the International Renewable Energy Agency, Venezuela had around 5.32 MW of installed solar PV power generation capacity in 2019. In 2019, the Venezuelan government announced a plan to build its first utility-scale PV project to strengthen its National Electric System.

How big is the Solar Photovoltaic Glass market?

Image © Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The solar photovoltaic glass market size reached 32.10 million tons in 2025 and is forecast to reach 74.75 million tons by 2030, advancing at an 18.42% CAGR between 2025 and 2030.
