Victoria solar Inverter Manufacturer

Overview

Who are SMA Solar inverters?

With more than 40-years of global legacy in PV, SMA has a large presence and is the chosen European PV inverter manufacturer brand in the Australian solar market. Worldwide, the SMA Group is setting the standards today for the decentralised and renewable energy supply of tomorrow.

How many SMA inverters are there in Australia?

Over 750,000 SMA inverters have already been installed across Australia alone, producing more than 35% of all solar electricity in the country. With more than 40-years of global legacy in PV, SMA has a large presence and is the chosen European PV inverter manufacturer brand in the Australian solar market.

What is a 125 MW solar farm in Victoria?

Located near the Elaine Terminal Station in regional Victoria, the project comprises a 150 MWp solar farm and a 125 MWac battery energy storage system (BESS). Spanning 600 acres, and featuring approximately 230,000 ground mounted solar panels, the project will generate enough clean, renewable energy to power around 60,000 Victorian homes.

What is a solar inverter?

A solar inverter is a key component in any solar power system, converting DC electricity from solar panels into AC power used by most appliances and electrical equipment. This transformation is essential, as over 90% of devices worldwide operate on AC.
