

# Vilnius Energy Storage Container Off-Grid Type

## Overview

---

Who is the operator of electricity storage facilities in Lithuania?

In July of 2021, the Government of the Republic of Lithuania appointed Energy cells as the operator of the storage facilities for the provision of electricity from the instantaneous isolated mode reserve and entrusted it with the operation of the system of electricity storage facilities.

How many battery parks are there in Vilnius?

The system consists of four 50 MW battery parks, installed at electricity transformer substations in Vilnius, in Šiauliai, Alytus and Utena. They can provide continuous power for about one hour or until other sources of power generation come online, Kruonis HAE.

How DH &C systems are being implemented in Lithuania?

Currently part of DH systems in Lithuania is installing and/or planning to install heat storage facilities, which will enable an increase the efficiency and enhance the living age of biomass-burning DH&C systems. These are mainly insulated hot water tanks and/or underground water tank storage.

Will lavastream install a thermal power plant in Lithuania?

Lavastream plans to install a thermal power plant with a capacity of around 30 MW in Klaipėda and 15 MW in southwestern Lithuania by 2028, as well as a geothermal-geological long-range electricity storage system.

## Vilnius Energy Storage Container Off-Grid Type
