

# **West Africa Base Station Power System Project**

## Overview

---

What is the West African Power Pool?

The West African Power Pool is a specialized agency of ECOWAS. It covers 14 of the 15 countries of the regional economic community ( Benin, Côte d'Ivoire, Burkina Faso, Ghana, Gambia, Guinea, Guinea Bissau, Liberia, Mali, Niger, Nigeria, Senegal, Sierra. Audit Externe du Projet de Renforcement de l'interconnexion en 400/330 kV.

What is the West African Power Pool (WAPP)?

One key initiative is the West African Power Pool (WAPP), which is helping boost energy electricity supply in 14 countries, benefiting 57 percent (more than 244 million people) of the population in West Africa.

How does ECOWAS set the market procedures for the West African Power Pool?

ECOWAS also sets the market procedures for the West African Power Pool. To begin the procedure, any entity which owns or operates transmission infrastructure must apply for admission to the market itself. Entities holding power purchase agreements of bilateral agreements may also apply for admission and acceptance as a Market Participant.

Is access to finance stifling West Africa's energy transition?

Access to finance is a significant challenge stifling West Africa's energy transition. According to a study by PwC and Masdar, more than USD \$540 billion needs to be invested in the power sector by 2050, with approximately USD \$230 billion of that sum required for network upgrades and storage infrastructure.
