

# What are the BESS companies with grid-side solar container storage capacity

## Overview

---

What is grid energy storage?

Gain data-driven insights on Grid Energy Storage, an industry consisting of 3K+ organizations worldwide. We have selected 10 standout innovators from 600+ new Grid Energy Storage companies, advancing the industry with immersion-cooled battery storage, flywheel storage, electric marine propulsion systems, and more.

What is the battery energy storage system (BESS) industry?

The Battery Energy Storage System (BESS) industry has experienced remarkable growth in recent years, driven by the global shift toward renewable energy and the increasing need for reliable grid stability solutions.

Are battery energy storage systems essential grid infrastructure?

Battery energy storage systems (BESS), once seen as promising add-ons to renewables, are now considered essential grid infrastructure—tested during blackouts, storms, and surging demand curves. One of the clearest trends shaping this change is the prioritization of availability over capacity.

How many grid energy storage companies are there?

Out of these, 600+ new grid storage companies were founded in the last five years, witnessing 2020 as the average founding year. On average, each of these companies employs about 15 people. Moreover, the average funding received by these 600+ grid energy storage energy companies per round in the same span is USD 60.7 million.
