# What are the power exchange cabinet stations in Tuvalu

## Overview

---

What information does the Tuvalu Electricity Corporation provide?

The Tuvalu Electricity Corporation shall inform the Renewable Power Plants owners/operators of the highest and lowest short-circuit current that can be expected at the point of connection to the grid as well as any other information about the network as may be necessary to define the Renewable Power Plant's protection functions.

How TEC is powering Tuvalu with renewable resources?

TEC has set a vision of "Powering Tuvalu with Renewable Resources" and this align well with the Tuvalu Government set target of 100% renewable energy by 2025. All the islands of Tuvalu are on 24/7 power supply and the access rate is 100%. The outer islands are powered by hybrid solar PV system with diesel generator on standby.

When should I submit a report to Tuvalu Electricity Corporation?

Submit a report to the Tuvalu Electricity Corporation one month after test. All new Renewable Power Plants coming on line and after major modifications or refurbishment of related plant components or functionality. Routine test/reviews: Confirm compliance every 6 years. To confirm that the active power control capability specified is met.

Does Tuvalu have battery storage?

Battery storage is a potential solution (and this is studied in more detail in Task 2). Tuvalu is a small country in the South Pacific region, made up of 9 islands. The power system on Funafuti, one of the six true atolls, is operated by the Tuvalu Electricity Corporation (TEC).
